INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

DE 29 01 974 discloses humidity control for a drum dryer, having an electrode interval measuring the conductivity of the washing, having a switch device, controlled by the measurement of the electrode interval, for a heating system and a motor and having a bridge circuit, in which the electrode interval is arranged in one branch and a device supplying a conductivity value, corresponding to a degree of drying which can be pre-selected manually, is arranged in the other branch, which device, on reaching the specified conductivity value, interrupts by means of time elements the electricity supply to the heating and subsequently to the motor and the other items of equipment, characterized in that a comparator (7) is provided, which comparator receives the output signals of the bridge circuit (1-4) and on whose outlet at least one numerical module (9) is present, which numeric module (9), after reaching the specified conductivity value, determines a continuing heating time until the heating (16) is switched off and subsequent to this, a cooling time until the motor (23) and the other equipment items are switched off, and in that in addition to the conductivity value specification, the subsequent heating time or cooling time of the numerical module or modules can be varied.

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" is included with the aforementioned copies of those applications, patents and/or publications, it is because no existing translation is readily available to the Applicants. As per the Notice in 1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted
